EDUCATION

Indiana University, Luddy School of Informatics, Computing and Engineering | Bloomington, IN
Bachelor of Science in Computer Science | **Minors:** Accounting, Data Science, Math

May 2029
GPA: 3.96/4.00

TECHNICAL SKILLS

Python | Linux | Java | HTML | JavaScript | CSS | SQL | Excel | Github

CERTIFICATIONS

CompTIA Security+	Expected February 2027
AWS Cloud Practitioner	Expected January 2027
FreeCodeCamp Information Security	Expected January 2027

WORK EXPERIENCE

Math and Computer Science Tutor <i>Tutor</i> Bloomington, Indiana	December 2025 - Present
- Provided individualized tutoring in calculus, strengthening conceptual understanding and improving students' problem-solving skills - Supported students in understanding core computer science concepts, assisting with debugging, logic, and building computational thinking	
Student Financial Educator <i>Peer Educator</i> Bloomington, Indiana	April 2026 - Present
- Educate fellow students on personal-finance topics including budgeting, saving, credit, and navigating common financial decisions. - Delivered presentations and staffed tabling events to increase awareness of financial education services and encourage student appointments	
SEO First Year Academy <i>Software Engineer Scholar</i> Bloomington, Indiana	December 2025 - June 2026
Selected as 1/75 for an intensive technical fellowship focused on industry-standard software engineering practices and career readiness.	

PROJECTS

Research on LiCoO₂ Cathode Material <i>Undergraduate Research Assistant</i> Bloomington, Indiana	June 2025 - August 2025
- Conducted Density Functional Theory (DFT) simulations using Quantum ESPRESSO to investigate the electronic structure of LiCoO₂, deepening insight into cathode stability, charge transfer, and overall electrochemical behavior. - Applied computational chemistry methods and pseudopotential libraries to model atomic interactions, refining accuracy of simulations while gaining hands-on experience in high-performance computing and materials modeling. - Collaborated with lab mentors to interpret results and prepare data for inclusion in ongoing research on lithium-ion battery materials.	
Research on "Dopamine Detoxes" <i>Undergraduate Research Assistant</i> Bloomington, Indiana	June 2026 - August 2026
- Built an end-to-end data pipeline using open-source TikTok API to collect and organize short-form video content for behavioral analysis - Applied topic modeling to identify recurring themes and classify content related to dopamine-driven engagement patterns. - Developed a sentiment-analysis workflow to evaluate tone across content, connecting topic-level trends with audience sentiment.	
Case Competition - Technology Management Club <i>Participant</i> Bloomington, Indiana	November 2025 - November 2025
- Analyzed a real-world business scenario and developed a data-driven solution to with a team of 4 students - Delivered a structured recommendation deck focused on increasing market capitalization and presented findings to a panel of four judges.	

LEADERSHIP & INVOLVEMENT

ColorStack IU <i>Freshman Representative</i> Bloomington, Indiana	August 2025 - May 2026
- Advocate for underclassmen by voicing their perspectives and contributing to initiatives that empower students of color in technology fields - Contribute to the development of events and programs by providing input and assistance	
Technology Management Club <i>Executive Board, Generative AI Team</i> Bloomington, Indiana	September 2025 - December 2025
- Plan and speak at events on generative AI, highlighting new technologies, real-world uses and career opportunities in technology fields - Coordinate speaker and panel talks, participating in discussions that engage students on the impact of AI and other innovations	
Wonderlab Museum <i>Volunteer</i> Bloomington, Indiana	September 2025 - Present
- Assist with hands-on exhibits and science demonstrations, encouraging children to explore science concepts in an engaging way - Support staff with preparing event materials, setting up exhibits, and engaging with attendees during programs to ensure a welcoming space	
Municipal Gardens <i>Community Volunteer</i> Indianapolis, Indiana	August 2024 - December 2024
- Partnered with staff to organize youth programs, including basketball and other sports, fostering teamwork and discipline - Mentored youth participants by providing encouragement and guidance, building confidence and strengthening community relationships
